

The image shows the interior of a restaurant. In the foreground, there is a square wooden table with a thick top and a grey metal leg. A grey metal stool is tucked under the table. In the background, there are more similar tables and chairs. The walls are made of vertical wooden slats. A large yellow circular object is hanging on the wall in the upper left corner. The text "CASE STUDY: FATBURGER" is overlaid in the upper right area, and "CROW WORKS" is overlaid in the lower right area.

CROW WORKS

CASE STUDY:

FATBURGER

—

Since 2020, we've collaborated with FAT Brands to produce furniture for their Fatburger and Buffalo's Express locations. Fatburger's interiors combine nostalgic elements like neon signage, checkerboard flooring, and stainless steel with modern industrial seating for a unique take on the "diner" aesthetic. American White Oak in our Lightly Toasted finish warms up the space and gives it a cohesive look.

“We chose to work with Crow Works due to the quality and craftsmanship of their products. I appreciate their accurate and transparent lead times and that products are never out of stock since they’re made to order. I’ve found the Crow Works team to be very harmonized; each department works together smoothly from start to finish.”

DESIGN, FAT BRANDS**

SEATING

Fatburger chose to use some of our more industrial style seating, including the One Ton Stool and the M1 Machine Bench. These products help to give the nostalgic interior elements a bit of an “edge” and pairs well with their modern diner aesthetic.

TABLES

Our X-Base and T-Base tables have been a longtime favorite for many of our clients. Their simple design allows for great versatility and they blend in with many design styles.

MATERIALS & FINISHES

WOOD

Our products are crafted from American White Oak, American Black Walnut, and American Hard Maple. These quintessential hardwoods are considered among the most durable. They are finished with a durable, UV-resistant, matte top coat. Our region is net positive in tree harvesting and we take care in our sourcing to see that nothing goes to waste. As part of our commitment to sustainability, we initiated our “Tree for Every Top” program in 2021. For every tabletop we sell, we plant a sapling in our community as an investment in the environment.

LIGHTLY TOASTED
American White Oak

METAL

Our metal products are powder coated, creating a long-lasting and durable finish.

TEXTILES

Ultraleather® Pro has optimal durability, protection, and ease of care attributes. This textile is known as the softest in its class and is infused with comfort and power combined.
