

The image shows the interior of a White Castle restaurant. In the foreground, there are three long, light-colored wooden tables with black metal legs. To the left of the tables are several wooden chairs with black frames. To the right is a long wooden booth with a dark grey upholstered backrest. The wall behind the tables is covered in a light-colored, perforated wood paneling. A large window on the left side of the frame looks out onto a parking lot with a red truck. A single copper-colored pendant light hangs from the ceiling. On the right wall, there is a framed poster with the White Castle logo and other text. The floor is made of large, light-colored tiles.

CASE STUDY:

## WHITE CASTLE

---

We partner with White Castle to provide a seating and table package that pairs durability with style. Our regional supply chain and USA-built products make Crow Works an ideal partner for White Castle as they renovate locations around the US.

The White Castle team chose to use solid White Oak tabletops and seating to bring the warmth of natural materials into their dining rooms. COM upholstered back cushions on our Quincy Banquettes complete White Castle's adaptable furniture package.

## SEATING

The White Castle furniture package includes a wide range of seating heights and styles that adapt to many different floor plans.

# TABLES

Our X-Base and T-Base tables have been a longtime favorite for many of our clients. Their simple design allows for great versatility and they blend in with many design styles. The Strap Leg bar table creates a perfect community area for larger groups.

# MATERIALS & FINISHES

## WOOD

Our products are crafted from American White Oak, American Black Walnut, and American Hard Maple. These quintessential hardwoods are considered among the most durable. They are finished with a durable, UV-resistant, matte top coat. Our region is net positive in tree harvesting and we take care in our sourcing to see that nothing goes to waste. As part of our commitment to sustainability, we initiated our “Tree for Every Top” program in 2021. For every tabletop we sell, we plant a sapling in our community as an investment in the environment.

## METAL

Our metal products are powder coated, creating a long-lasting and durable finish.

## TEXTILES

The White Castle design team worked with Designtex to create a custom plaid vinyl using their brand colors for a unique and bespoke look. The Nightingale collection by Wolf Gordon is a polyester knit-backed vinyl with spill- and stain-resistant treatment.
